SECTION 5: FIRE FIGHTING MEASURES

5.1 Extinguishing media:

Suitable extinguishing media: Carbon dioxide, dry chemical, foam.

Unsuitable extinguishing media: Do not use a direct water jet on burning material.

5.2 Special hazards arising from the substance or mixture:

Carbon monoxide and unidentified organic compounds may be formed during combustion.

5.3 Advise for firefighters:

Use breathing apparatus with independent air supply. Fire residues and contaminated firefighting water must be disposed of in accordance with local regulations.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

- For non-emergency personnel:

  Avoid inhalation and contact with skin and eyes. A self-contained breathing apparatus is recommended in case of a major spill.

- For emergency responders:

  Use personal protective clothing. Keep away sources of ignition.

6.2 Environmental precautions: Do not discharge into the drains/surface waters/ground waters.

6.3 Methods for Containment and Cleaning up:

Clean up spillage promptly. Remove ignition sources. Provide adequate ventilation. Avoid

excessive inhalation of vapours. Gross spillages should be contained by use of sand or inert powder and disposed of according to the local regulations.

6.4 Reference to other sections:

- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for information on disposal.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling:

- Protective measures:

Avoid excessive inhalation of concentrated vapors. Follow good manufacturing practices for housekeeping and personal hygiene. Wash any exposed skin immediately after any chemical contact, before breaks and meals, and at the end of each work period. Contaminated clothing and shoes should be thoroughly cleaned before re-use. Keep away from ignition sources and naked flame.

- Advice on general occupational hygiene:

Do not eat, drink and smoke in work areas. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas.

7.2 Conditions for safe storage, including any incompatibilities:

Store in a cool, dry, ventilated area away from heat sources. Keep containers upright and tightly closed when not in use.

7.3 Specific end use(s): Not applicable.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters:

- Occupational exposure limits: Not available.
- Additional exposure limits under the conditions of use: Not available.
- DNEL/DMEL and PNEC-Values: Not available.

8.2 Exposure controls:

- Appropriate engineering controls:

Where appropriate, use closed systems to transfer and process this material. If appropriate, isolate mixing rooms and other areas where this material is used or openly handled. Maintain these areas under negative air pressure relative to the rest of the plant.

- Individual protection measures, such as personal protective equipment:

Eye/face protection:	Use tight-fitting goggles, face shield or safety glasses with side shields if eye contact might occur.
Hand protection:	Use chemically resistant gloves.
Body protection:	Wear suitable protective clothing to prevent skin exposure.
Respiratory protection:	No respiratory protection is required during normal operations in a workplace. If engineering controls and safe work practices are not sufficient, an approved, properly fitted respirator with organic vapor cartridges or canisters and particulate filters should be used.
Thermal hazards:	Not available.

- Environmental exposure controls:

Avoid discharge into the environment. According to local regulations and official regulations.
